

REMARKS

Applicant has amended claim 12 to correct the cited informality, obviating the basis for the § 112, second paragraph rejection.

Applicant respectfully traverses the § 102(b) rejection of claims 1, 2, 4-7, 11, and 12 over Zhu et al. The reference does not disclose all of the features of the claims, expressly or by inherently, most notably, that in a second step, a front punch and a rear punch are rotated in opposite directions to provide a shear.

In view of the above amendments and remarks, applicant submits that the rejections are unsupportable, and requests reconsideration and allowance of all of the pending claims.
